

Siddh Tyagi

+91 7017713557 | siddhtyagi1845@gmail.com | GitHub | Leetcode | Greater Noida

Professional Summary

Second-year **Computer Science student** with strong foundations in **Java, C, SQL, and Data Structures**. Experienced in developing **full-stack web applications and console-based systems**. Built **3+ software projects** implementing **REST APIs, database integration, and modular programming**. Seeking opportunities to contribute to **real-world software development projects** while expanding backend and system design skills.

Education

Galgotias University, Greater Noida
B.Tech in Computer Science & Engineering

2024–2028

Technical Training

Core Java Programming — ITDM, Saharanpur

Jun 2024 – Nov 2024

- Learned **Object-Oriented Programming** including inheritance, polymorphism, abstraction, and encapsulation
- Implemented **exception handling, file handling, and Java I/O** across **5+ modular programs**
- Developed a **console-based Electricity Billing System** managing customer records and billing calculations

C Programming Language — ITDM, Saharanpur

Jun 2024 – Nov 2024

- Built **4+ CLI applications** using control structures, arrays, pointers, and functions
- Implemented **menu-driven systems and calculator programs** emphasizing efficient memory usage

Oracle Database Management System Certification — Oracle

- Learned relational database concepts including **SQL queries, joins, indexing, and normalization**
- Implemented **CRUD operations and relational schema design** for scalable database systems

Projects

Online Course Recommendation System | HTML, CSS, JavaScript

GitHub

- Developed a **web-based recommendation platform** suggesting courses based on user interests and search queries
- Implemented keyword-based filtering to **recommend relevant courses from a dataset of 50+ entries**
- Designed an **admin dashboard** enabling dynamic course updates and content management

TruthCheck AI | JavaScript, Web Technologies

GitHub

- Built a **web-based fact verification tool** designed to analyze and validate information sources
- Implemented content processing and result display through a **responsive frontend interface**

Electricity Billing System (Java Console Application) | Core Java

GitHub

- Developed a **CLI-based billing system** processing electricity consumption and generating bills
- Managed **customer records and billing calculations** using modular **OOP architecture**

Technical Skills

Languages: Java, C, SQL, JavaScript, Python

Web Development: HTML, CSS, Node.js, Express.js

Concepts: Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems

Tools: Git, GitHub, Version Control

Other Skills: Problem Solving, Communication, Video Editing

Extracurricular Activities

- Member of the **college editing club** producing multimedia content
- Created **10+ promotional videos** for college events and seminars
- Volunteered in **college tech fest** managing event media and digital promotions
